Vertical blinds are perhaps the most complete window furnishing option, offering you maximum flexibility. The innovative design allows the louvers to be drawn neatly back to the side to offer unlimited clear views. The louvers can be rotated through 180 degrees allowing the user to totally control light levels within any room and yet maintain privacy.

'Shades' top selling range of fabrics is an eclectic mix of beautiful jacquards, weaves and designs in contemporary colour ways. There is a range of waterproof fabrics, easy to wipe down, ideal for the kitchen or bathroom and translucent materials – perfect replacements for dated net curtains.

Vertical blinds are perfect throughout the home but are the ideal choice for the more awkward windows too. We offer a curved headrail for bay or bow windows and can even make vertical blinds to fit sloping windows.
