Great Blinds,
Great Value,
Great Service.

SALE SALE SALE

Wooden venetian blinds are ideal for creating an atmosphere of natural warmth and style to your home. The beauty of the wood's grain and differing tones of colour, work well in all surroundings – from the very traditional setting to the most modern studio look.

Shades collection of wooden blinds is available with traditional 50mm (2") slats, the narrower 25mm (1") width, and the increasingly popular 35mm (1 3/8") slat widths. All are available in a vast array of natural, painted & stained finishes with co-ordinating pelmets & toggles, as standard.

Choose from an extensive collection of decorative & single colour fabric tapes or the option of adding metallic toggles, to add a personal finishing touch to your blind. The blinds in the wooden venetian range feature FSC certified wood (Forest Stewardship Council) – helping to sustain the environment.

The **perfect** combination of nature's warmth and beauty in a window furnishing.

An **extensive** range of decorative tapes. Endless choice of plains, striped & textured.

FSC certified wood – sourced from forests that are managed to meet the social, economic & ecological needs of present and future generations.

All blinds in the wood collection are manufactured on a robust colour coordinating headrail system, with cord operation. This is a must and ensures you will have many years of trouble free operation from your blind.

We have a collection of blinds where the slats are manufactured using expanded foam PVC. The slats exhibit consistent grain characteristics and are most durable. They are particularly suited to rooms that experience a high level of atmospheric moisture changes, so are ideal for bathrooms, shower rooms and kitchens. This slat range is also Flame Retardant, and can be installed for commercial premises in addition to private homes.

Customise your blinds . . .

Choose from an extensive range of 25mm & 38mm wide ladder tapes, which not only personalise & help you match your interior decor, but can aid the demands for privacy and room darkening, by hiding the cord holes. With a variety of toggles to choose from, the possibilities of making a real feature of your wooden blind could not be easier.
